

Earthquake Readiness

— In Case of Emergency —

A major earthquake could occur at any time anywhere in Japan, so at least a minimum of knowledge is necessary to protect lives. The damage and necessary survival skills will vary greatly depending on the time when an earthquake occurs and its scale. In case of emergency, image training is important to consider what actions you should take.

- Confirm and ensure evacuation sites and evacuation routes (near the university and your residence, etc.)
- Confirm methods to contact your family and where to meet them
- Checking emergency message services and registering with them (prior registration of your email address, etc. is necessary)
- Check routes home and the amount of time necessary (walking speed during a disaster = approximately 2.5 km/h)
- Create and fill out memos for emergencies
- Confirm specific methods to gather information and emergency evacuation sites (at university and en route to university)
- Tidy your room to prevent items from falling, confirm possession of items for emergencies
- Confirm contact information for the university and your friends, etc. and create a list
- Participate in disaster training sessions and first aid training, learn to use fire extinguishers and check the position of fire doors.

For Information during Emergencies

Check the Kanagawa University Emergency Information page.

<http://emergency.kanagawa-u.ac.jp/>

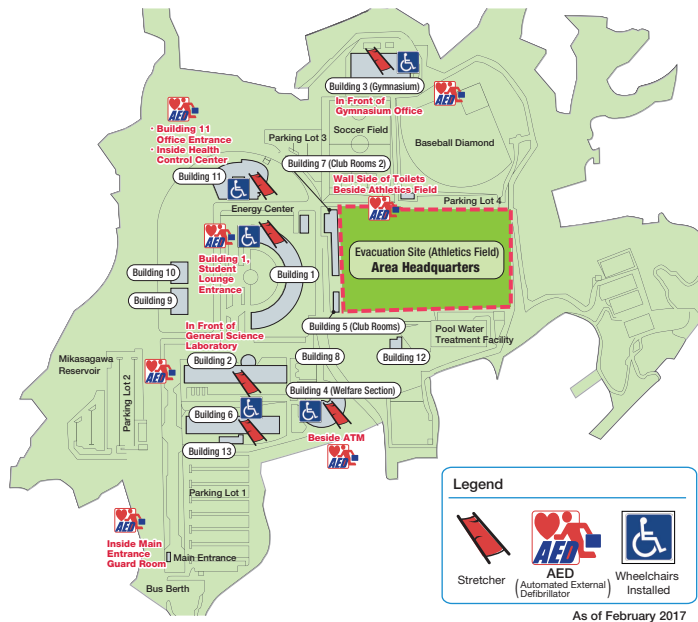

This manual can be printed out from the Kanagawa University Official website, so please inform your family about it as well.

<http://emergency.kanagawa-u.ac.jp/sm>

A version for mobile phones is also available, so please save a screenshot. However, mobile phone batteries may run out during an emergency, so make sure to carry this manual as well.

*Packet fees apply when connected to the internet.

How to Contact Family Members

This is a service provided when a disaster such as an earthquake occurs.

Confirmation by Telephone NTT Disaster Emergency Message Dial

Confirmation by Internet NTT Disaster Emergency Message Board

171 Dial 171 and voice guidance will play

Record **1**

Record using passcode **3**

Playback **2**

Playback using passcode **4**

Enter Area Code +
Phone Number of Person in Disaster Area

Trial Use

There are days established for trial use so that you can see how the system works in preparation for a disaster.

[Trial Use Days]

The 1st and 15th of every month (0:00 to 24:00), first 3 days of the New Year (0:00 January 1 to 24:00 January 3)

Disaster Prevention Week (9:00 August 30 to 17:00 September 5), Disaster Prevention and Volunteer Week (9:00 January 15 to 17:00 January 21)

Earthquake Preparedness Manual

Protect yourself in case of emergency

— Preparing for Earthquakes —

KANAGAWA UNIVERSITY

How to Contact the University

About Confirming Safety

When a major earthquake occurs, the university will confirm the safety of students and staff. If the earthquake occurs while not at school, use one of the following methods to contact the university as soon as possible.

● **Respond to the Safety Confirmation System**
When you receive a safety confirmation email from the university (from the emergency information dispersal support system for staff), please respond as soon as possible.

● **Email**
[Students] anpi-gakusei@kanagawa-u.ac.jp
[Staff] anpi-syokuin@kanagawa-u.ac.jp

● **Report by Postcard**
3-27-1 Rokkakubashi, Kanagawa-ku,
Yokohama-shi, Kanagawa, 221-8686
[Students] Student Life Support Department, Student Section
[Staff] Human Resources Department, Human Resources Section

Items to Report

(1) Students use student number/ Staff use employee number (2) Name (3) Condition of person reporting and their family (4) Evacuation site address and contact information (5) Problems (6) Condition of home and surrounding area
